# Site Analysis

# Mission Statement

Oasis is about converting the use of this community space while remembering its past life. We intend to do this by taking the old industrial uses of the gas station and evolving this type of man made industry into a much more natural state. This transition from industry to nature, man made to organic, is what we envision will create much more a community feel to the site.

# Precedents

Roberto Burle Marx - Banco Safra headquarters, São Paulo  
- Blend of geometric shapes and natural shapes

Kengo Kuma - Portland Garden  
-Modern Japanese garden, a natural setting in a designed environment

Alexander W Kemp - Playground, Cambridge MA  
- Implied use structures

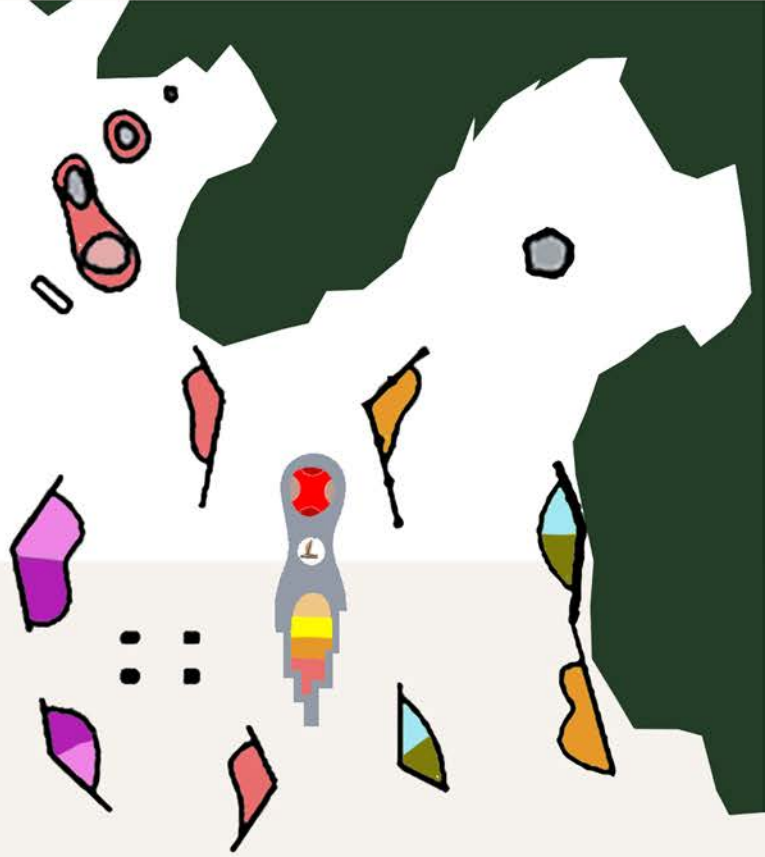

# Plants

- Wild Strawberry
- Butterfly Weed
- Showy Wild Garlic
- Ozark Bluestar
- Anise Hyssop
- Showy Goldenrods
- False Aster
- Cherry Blossom
- Apple Tree

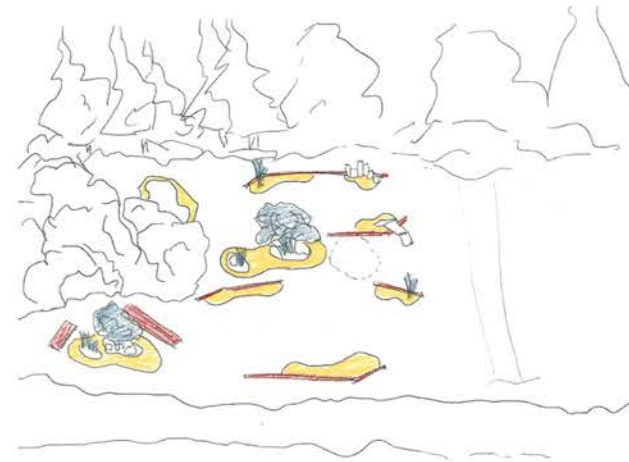

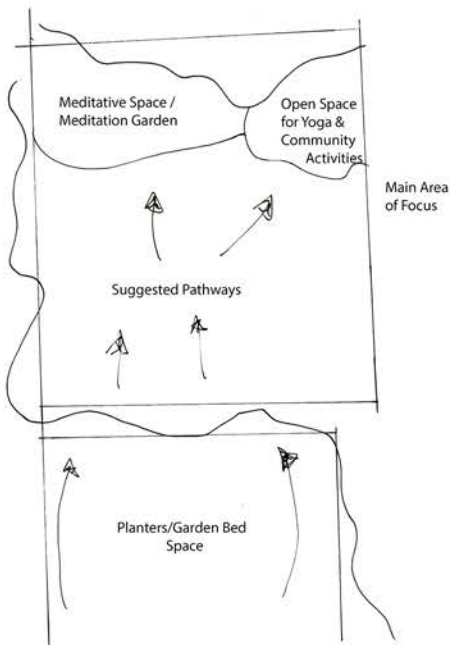

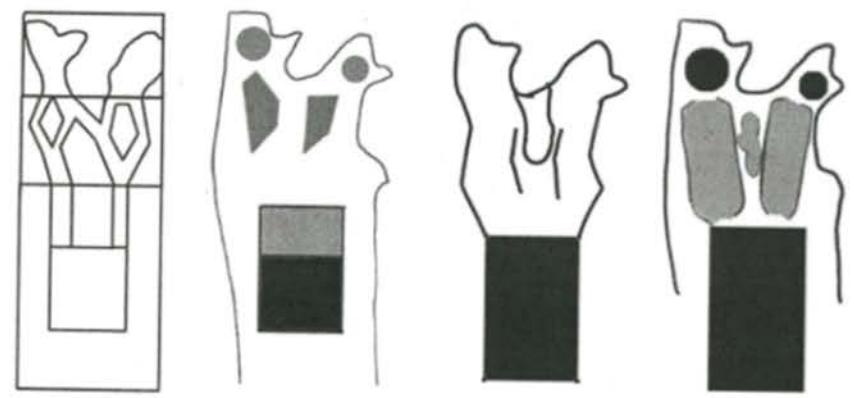

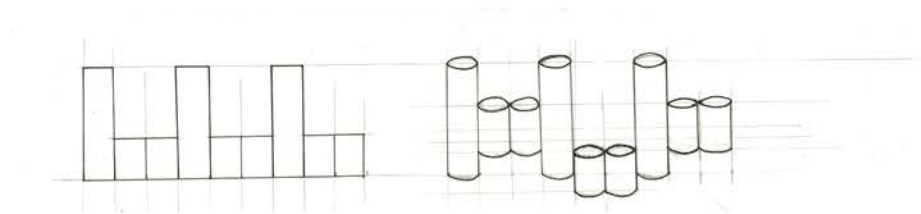

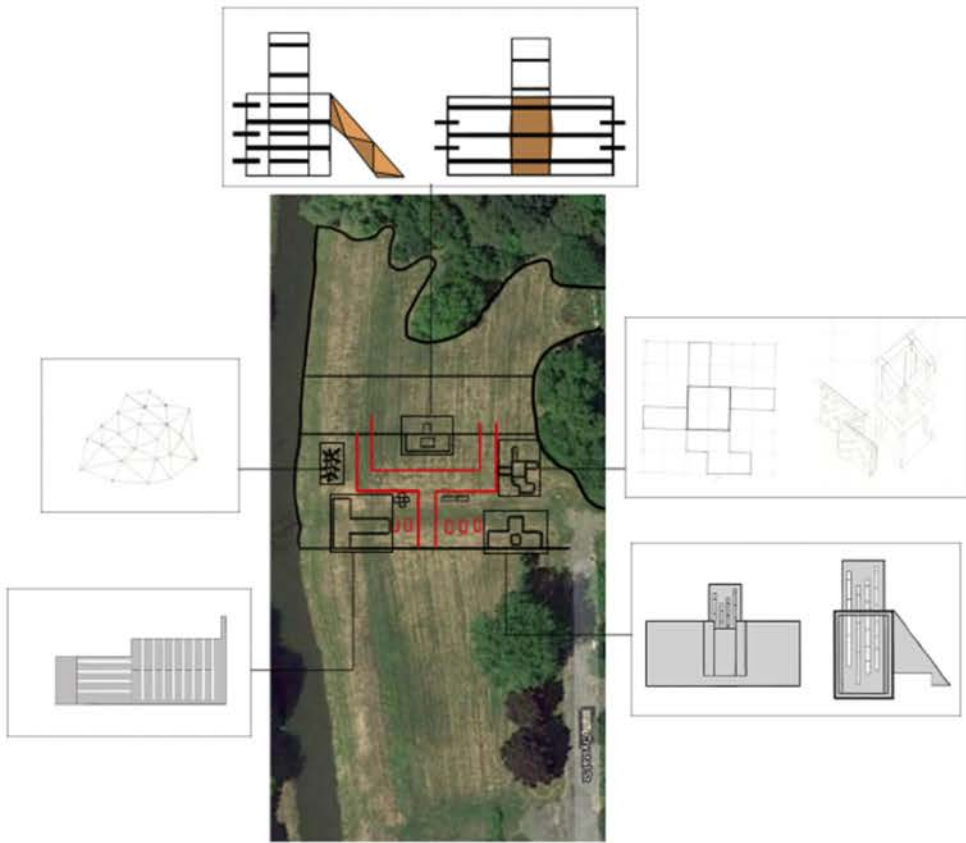

- Winter Camelias
- Winder Calendulas
- Winterberry

Current water supply on site
