Mapping Old Trees in the Finger Lakes National Forest

The Finger Lakes National Forest lies between Seneca Lake and Cayuga Lake within the Finger Lakes Region of Central New York.
Acknowledgements:

The Mid-Hudson Service Learning Institute for Watershed and Environmental Studies provided generous support for our initial planning team to attend Conference On Remote Sensing Education (CORSE) in June 2005.

Thanks to the Fall 2005 Environmental Studies Senior Seminar Students, Allison Callahan, Kate Feller, Lauren Geiger, Abby Gray, Krystal Hans, Nikki Vance, Louis (Evan) VanGorder, and Kate Warner for their careful mapping efforts, and to research assistant, Emily Runnells, for thorough editing and proof reading of delineations.

Thanks to Jim Hall for designing the GIS framework for the project and for co-teaching GIS skills to the seminar students.

Thanks to my collaborators Kathy Engel (Forest Watch), Karen Edelstein (Finger Lakes Land Trust) and the forest planners, managers, and scientists at the Finger Lakes National Forest.
