HWS Information Technology Services Bulletin

Number: 2015-12

Date: August 7, 2015

Announcement: Wireless Certificate Update

Description:
This fall, IT Services will need to renew the digital certificate that allows devices to securely connect to the HWS wireless network.

IT Services will be updating this certificate on August 11 between 6:30am and 7:00am. In many cases, faculty, staff and students will need to simply “accept” the new certificate when prompted to do so. However, some devices may require individuals to reconnect to the wireless network. The IT Services Web site has a series of instructions to assist you.
