Connecting to HWSWireless with Windows Vista

To connect to HWSWireless:

1. Open your Start menu and click Control Panel

2. Enter the Network and Internet section and open View Network Status and Tasks

3. In the Network and Sharing Center, click Manage Wireless Networks on the left

4. Click the Add button to create an entry for HWSWireless
   
   Note: If HWSWireless already appears in the list, double-click its list entry to configure it

5. In the Manually connect to a wireless network window, select the Manually create a network profile option
6. Enter the following information in the fields provided:

   - **Network Name:** HWSWireless
   - **Security Type:** 802.1x
   - **Encryption Type:** WEP

   After filling in the information, click Next.

7. In the *Successfully Added* dialog box, click the *Change connection settings* option.

8. In the *Wireless Network Properties* window, go to the *Security* tab.

9. Click the *Settings...* button.
10. Uncheck the **Validate Server Certificate** box

11. Click **Configure**

12. Uncheck the **Automatically Use my Windows logon name and password** box and click **OK** until you return to the Successfully Added window

13. Click the **Connect to…** button

14. From the list, select **HWSWireless**

15. Click **Connect**

   A dialog box will open so you can enter additional information to connect to the network.
16. In the additional logon information window, click **Enter/select additional logon information**

![Additional logon information window](image)

17. In the Enter Credentials window, enter your **HWS username and password** into the appropriate boxes

![Enter Credentials window](image)

18. In the Enter Credentials window, enter the logon domain **HWSMICRO**

19. Click **OK**

![Enter Credentials window](image)

20. Wait while your computer connects to the wireless network

   Another prompt for additional information will appear.

21. Click **Enter/ select additional logon information**

![Additional logon information window](image)
22. In the Validate Server Certificate window, click OK

Congratulations! You have successfully connected to HWSWireless.

23. Check Save this network

24. Click Close

You should now be able to connect to HWSWireless in any wireless area (if not, try restarting the computer)

If you experience any difficulty connecting to the network, please contact the Help Desk at the Rosensweig Learning Commons or (315) 781-4357 (ext. 4357 on campus)
