To scan your computer for viruses:

1. In the system tray at the bottom right of the screen, near the clock, double-click the NOD32 anti-virus icon

2. In the NOD32 Control Center screen, under Threat Protection Modules, click NOD32

3. In the NOD32 On-demand scanner screen, at the bottom left, click Local

The scan window will appear, and the scan will run for approximately 30-90 minutes.
4. When the scan is finished, click **Quit**

5. In the **NOD32** screen, click **Hide**
