

Installing Security and Software Updates Windows 7

3/30/2011

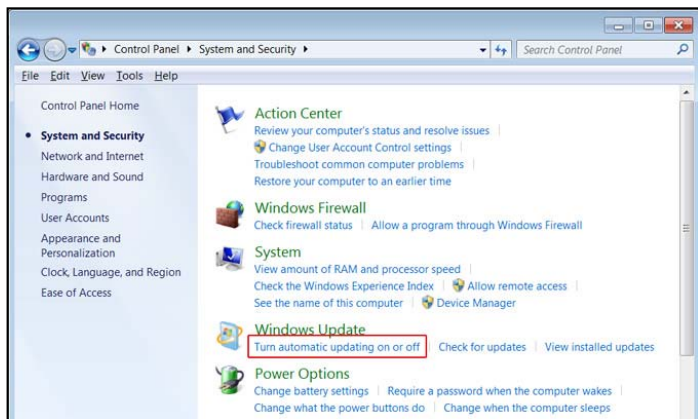

IT Services recommends activating the automatic updates feature of Windows if it has not already been activated. You can also manually check for updates by visiting the Microsoft Updates Web site.

To turn on automatic updates:

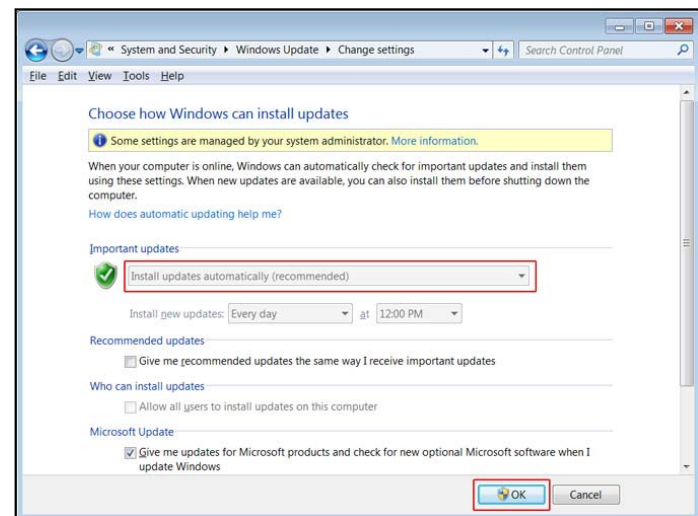

1. Go to **Start > Control Panel**
2. In the Control Panel, click **System and Security**
3. Under Windows Update, click **Turn automatic updating on or off**

4. In the Choose how Windows can install updates screen, click **Install updates automatically (recommended)**

5. Click **OK**

Installing Security and Software Updates Windows 7

3/30/2011

To install Windows Security updates:

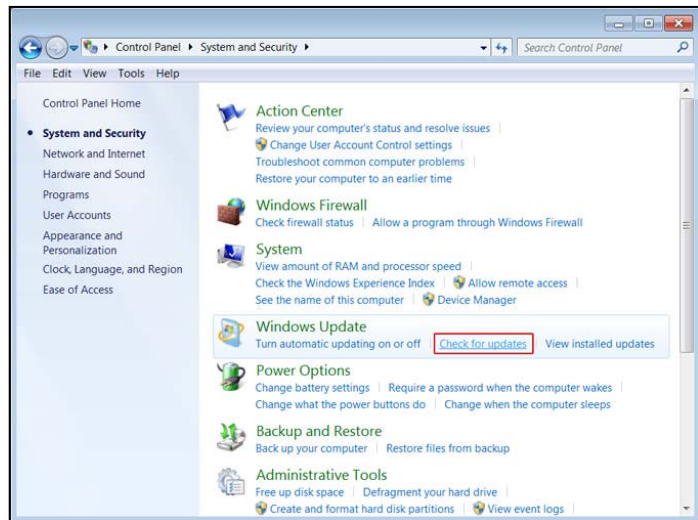

1. Go to **Start > Control Panel**

2. In the Control Panel, click **System and Security**

3. Under Windows Update, click **Check for updates**

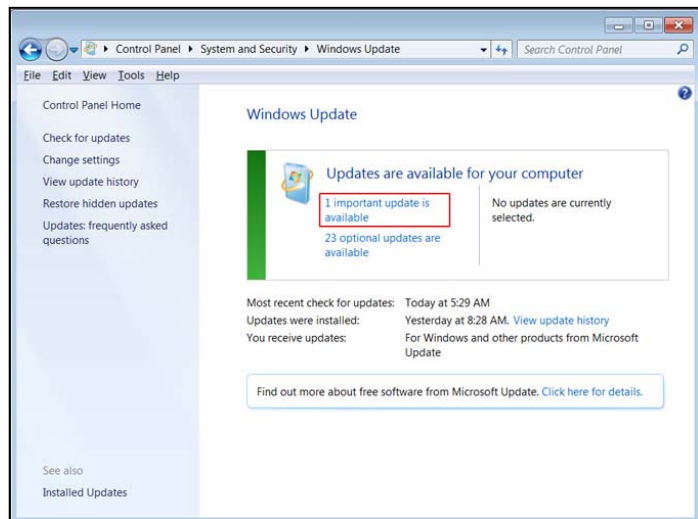

4. In the Windows Update screen, click **Check for updates**

5. If updates are found, in the Windows Update screen, click on the **updates**

6. Check to **select the updates** to install

7. Click **OK**, and follow any install prompts
