**Electives at 200-Level or Higher**
- 3 required
  - Electives in any discipline or department to increase the amount of interdisciplinary study within the major. Bearing this in mind, only two of these electives must be taken outside the disciplines of studio art, art history, architectural studies, and architecture design studio, whether taken at HWS or abroad. For optimal career path exploration and development, these electives should be thoughtfully taken based on your interests and in consultation with your advisor.
  - *By special permission from your architecture major advisor, students may count these HWS-taught 100-level courses toward these electives. MATH (Calculus 130 or 131) or PHYSICS (140, 150, or 160).*

  - **Students may not use transfer or AP credits for Math or Physics if they want those credits to count as major electives. If you want to count Math and/or Physics toward your major, you must take these courses at HWS.**

**Note:** to study abroad in DIS-Copenhagen or Lexia-Berlin, students must take Arch 200 before going.
