Leipzig, Germany – a Model for U.S. Sustainability?

Why is Leipzig „der grünsten Städte Deutschlands?“

Policy
- Die Energiewende
- Die Umweltzone
- Finanzierung

Research
- Das Helmholtz Zentrum für Umweltforschungen

Urban Planning
- Der Leipziger Promenadenring
- Das Karl-Heine Kanal

Challenges and Applications to Our lives in the U.S.

- Growing population → gentrification and environmental inequalities
- Are sustainability efforts ever sufficient?
- The necessity of policy for fostering significant change
- Creative solutions for difficult problems
