

Italian History In Geneva

A community collaboration by
Hannah Angelico, Gianluca LoPorto, and Joey Tello Galicia
under the supervision of Professor Lucci

Our independent study took us down town in Geneva to the Sons and Daughters of Italy Lodge #2397 where we worked together with members of the Lodge and Historic Geneva to build up the Italian Heritage Room. We researched, wrote and even painted our way to preserving these stories that might not otherwise be told in an effort to give that rich voice back to the community and encourage others to do the same.
