

The Academic and Experiential **OPEN HOUSE**

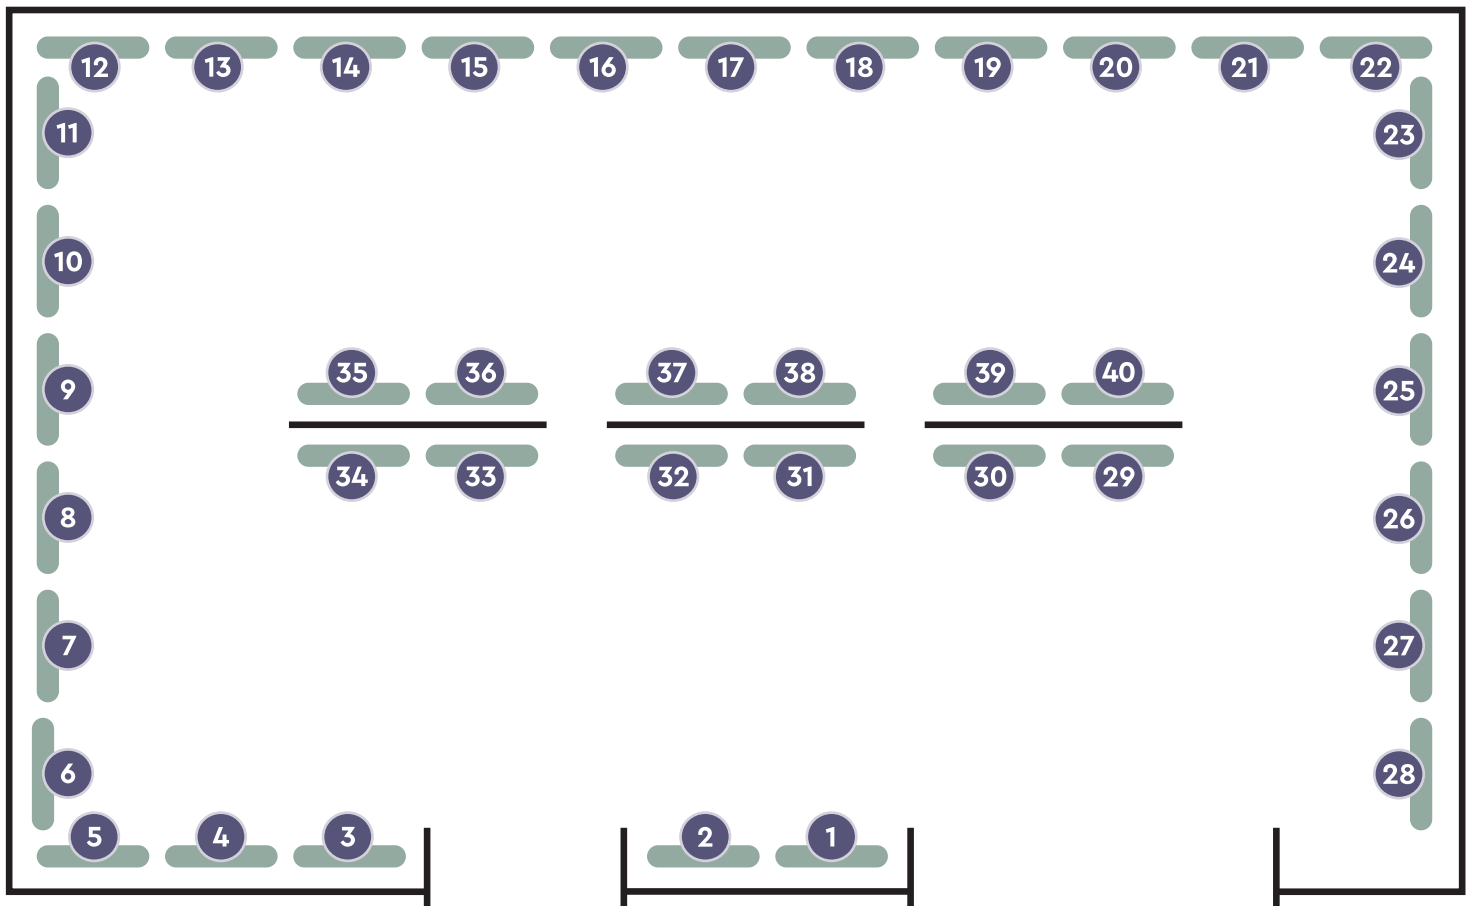

We encourage you to engage with members of our community to learn more about the opportunities available. Included are academic departments and key offices that will be part of your experience at HWS. We recommend using this time to explore areas of interest by:

- **Introducing yourself to faculty.**
- **Approaching departments and programs that are unfamiliar to you in order to learn more.**
- **Asking one of our Experiential Centers how you can connect with them during your first semester.**
- **Talking with other admitted students around you.**
- **Visiting the Admissions table to say hello.**

See opposite side for a map of department tables
